BUILDING CODE AND ZONING ORDINANCES FOR THE
TOWN OF ATKINSON, N. H.

Adopted March 12th, 1940

To promote the health, safety, convenience and general welfare of the Town of Atkinson, and to make it an attractive place in which to live, the following ordinance and building code is hereby exacted by the voters of said town in annual town meeting convened:

Article 1—Establishment of Zoning Districts:

Sec. 1—For the purpose of this ordinance the Town of Atkinson is divided into two zones:

Zone A shall comprise the whole town with the exception of Zone B.

Zone B—Recreation Zone, the territory extending from the shore of Island Pond to within 300 feet of the center line of Route 111.

Article 2—Building Regulations. Zone A.

Sec. 1—The Roof of every building hereafter erected or re-covered in whole or in part shall be covered with fire resisting material, except that this section shall not be construed to prohibit the use of wood shingles in repairing any roof now covered with wood shingles.

Sec. 2—Chimneys shall be constructed of stone, brick or cement to the ground, shall be lined with tile and extend 2 feet above the roof to which it belongs, and shall have clean-out opening at the base. No smoke pipe shall be allowed to pass through floors or partitions separating rooms, and all entrances to said chimneys shall be of fire-proof construction.

Sec. 3—Every dwelling shall have a minimum ground floor area of 400 square feet, inside measurement, for each family unit.

Sec. 4—Sewerage: All dwellings and all public buildings shall be equipped with cesspool, septic tank, sanitary chemical closet or approved vault.

Sec. 5—Every building shall be set back from the front property line not less than 30 feet, or such distance as shall conform with the average line of existing buildings 500 ft. on either side, and all buildings shall be set back at least 10 ft. from the side lot line.

Sec. 6—No signs shall be permitted except the following: Town and State highway directional and regulatory signs, historic signs and those signs used to advertise the profession or goods dealt in by owner or occupant of property on which placed. No sign or group of signs shall exceed 20 sq. ft.—outside dimensions—and shall not be placed so as to obstruct view on highway. Locations of signs shall be governed by same rules as apply to buildings in Sec. 5.

Sec. 7—Reconstruction of Buildings: Any structure destroyed by fire, explosion, flood, storm or other act of God may be rebuilt or reconstructed within one year of its destruction except that if a non-conforming use is destroyed to a degree of 75 per cent or more as determined by assessed valuation, it must, when rebuilt, conform to the terms of this ordinance in its location and construction.

Sec. 8—The construction of small accessory buildings together with minor alterations, repairs and general upkeep of existing buildings shall be exempt from the provisions of Sec. 7 and following articles.

Sec. 9—New Development.

A. The owner of any plot of ground intended for development or subdivision into building lots not fronting upon a public highway shall file with the Board of Selectmen a plan or map of the proposed subdivision, and shall obtain the approval of the Board of Selectmen thereon before proceeding with the development or sale of lots in the said subdivision.

B. It shall be the duty of the Board of Selectmen to inspect the site of such proposed subdivision, and to require such roadway and other areas for common use as will eventually be acceptable to the town for maintenance by the town, and to approve the same when satisfied that such proposed plans are in harmony with and conducive to the general welfare of the Town and the neighborhood, and not detrimental to existing property values, but in no sense shall this be deemed an acceptance by the town of the street or streets.

Article 3—Building Regulations of Zone B. The provisions of Zone A shall be applicable to Zone B except in the following respects:

Sec. 1—Dwelling not used for year round residence shall have a minimum ground floor area of 300 sq. ft. for each family unit.

Sec. 2—Provisions of set back from front property line shall not apply.

Article 4—Town Building Inspector:

Sec. 1—For the purpose of this ordinance the Board of Selectmen shall appoint a town Building Inspector who shall perform the duties of his office as designated in the various provisions of this ordinance and shall make inspections of all buildings in the process of building or reconstruction and report all violations to the Board of Selectmen.

Sec. 2—Any person before commencing work on the erection or alteration of any building or structure must first obtain a permit duly granted for such erection or alteration by the building inspector. Before a permit shall be issued by the Building Inspector, he shall determine whether the proposed construction or alterations conforms to all the conditions of this ordinance.

Sec. 3—An application fee of \$2.00 for new construction or \$1.00 for major alteration, to be retained by the Building Inspector as full compensation for his services, must be paid by the applicant before permit is issued. Permits for repairs, will be issued free.

Sec. 4—No permit, however, shall be issued unless the proposed structure will present a reasonable appearance and will be in keeping with the neighborhood and unless the building is to be finished on the exterior in a permanent manner and is to be suitably painted on the outside whenever the same is of wood or a material customarily painted except that in Zone B camps may be left unpainted. This is intended to eliminate the erection of structures obviously out of place for the neighborhood where they are to be located, and which may have a detrimental effect on property values and neighborhood character. When an objection, on account of the appearance of a proposed structure as above indicated, is raised by a majority of the families residing or owning property within a radius of 500 ft. of the property in question, the Board of Adjustment shall hold a public hearing to receive evidence on both sides and shall have the authority to decide whether the permit shall be issued or not.

Article 5—Board of Adjustment:

The Selectmen shall appoint a Board of Adjustment conforming in membership and duties to the provisions of Chap. 42, Sec. 54-60 inclusive of the Public Laws, said Board to serve without compensation. This citizen board shall have authority to allow slight variances from the specific terms of this ordinance, where it can be shown that they would result in unnecessary hardship.

Article 6—Penalty for Violations:

Whoever violates any of the provisions of the above regulations shall be punished upon conviction by a fine not exceeding \$10.00 for each day of each violation. It shall be the duty of the Selectmen to see that this ordinance is enforced and to take appropriate steps to correct any violations of this ordinance in accordance with Public Laws, Chap. 42, Sec. 67.

Article 7—Amendment of Ordinance:

The provisions of this ordinance may be amended or changed at any regular or special Town Meeting by a majority of the voters present as provided by the Public Laws.

Article 8—This ordinance shall take effect upon its passage.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Atkinson:

I take pleasure in presenting my annual report as Superintendent of your schools.

The Statistical Report, Table I, is for the school year ending June 30, 1940, and Table II is for the last ten years ending June 30, 1940. This report is followed by the reports of the Music Supervisor and the School Nurse.

The staff of teachers in the Atkinson Schools remains the same as last year. We are fortunate to retain the services of able and experienced teachers.

The enrollment in the elementary schools for the year covered by this report was sixty-three, showing a decrease of one since the year previous. The enrollment of the Academy was nineteen, one more than the year previous. The school attendance averaged 95.17% of the membership, as compared with the state average of 95.37%.

There were seven graduates from the eighth grade last June, and all but one of these have entered the Academy this year. The following list shows the September enrollment of Atkinson pupils in High Schools:

Atkinson Academy	18
Woodbury High School	2

Total Atkinson pupils enrolled in High Schools 20

The space in front of the Primary building was graded with gravel, last summer, and after being packed down, improves the school yard very much.

Metropolitan Achievement Tests were given during the year to all pupils in grades two through grades eight. The Otis Mental Test was administered in the fourth grade. Through a study of the test results the teacher is able to determine where there may be weaknesses in her work with individuals as well as with the group as a whole. She is then in a better position to correct those weaknesses and modify her program. These tests are a strong factor, also, in teacher growth, with the improvement in teaching efficiency as a result. The results obtained on the Standard tests, in the tool subjects, that have been given during the year have been satisfactory. In most instances, our median achievement has been at or above the standard set up by the test.

The radio continues to be used in the classrooms, with increased effectiveness. The most helpful programs have been those in geography and literature. We continue to limit ourselves to two listening periods per week.

In last year's report there was printed information on the method of securing a working certificate. Considerable confusion is still in evidence. There are two things to keep in mind. (1) The working certificate must be obtained from the Superintendent of Schools of the town or city where the work is located. (2) Those between sixteen and twenty-one years old, desiring a certificate, should present, in person, to the certifying officer, a birth certificate, and a statement from their employer certifying that employment is being given.

The goal of the school and the home is the same—good citizenship. A good home is still the best school yet devised by society. Too often we think of education as the learning acquired in schools, from books. We, in school work, know that "book learning" is only a part of life's education. We try to teach the meaning of work, co-operation, leadership, followership, and to develop traits of good personality. We believe in the necessity of the three R's, for we know that these subjects have a life value and use.

But parents are teachers. The home is more fundamental than the school in getting ready for life; for a home is a natural situation. The family group has been the basis of society for untold generations.

What ought parents teach? First, parents ought to teach the meaning of discipline. The school has your child a few hours a day for less than half the days of the year. Discipline is a difficult trait to describe. But it is self-evident. Life requires discipline. It is the parent's primary responsibility to instill it. The reasonably disciplined child has a head start in the battle of life over the one who has learned little self-control.

Second, parents ought to teach their children the meaning of work. It's just as easy to instill the work habit in children as it is the play habit. Work is a foundation stone of success in life. Many young people do not succeed in their jobs because they lack the work attitude. The parent who says, "Let John and Mary have a good time now; they'll find out what life is when they grow up," is doing his children a deep wrong. True education is getting ready for this practical, everyday world of ours, and honest work is a vital part of it.

Third, the home should teach certain traits that help mould a well-rounded personality; courtesy, cleanliness, an optimistic viewpoint, right attitude toward money, co-operation, self-reliance, and learning to live with others.

The goal of the home and school is the same. We want young people to become good citizens. Working together, in common understanding, we can help boys and girls become the right type of citizens.

We have tried to prepare our pupils for enlightened citizenship by attempting to develop skills in the fundamental tool subjects — arithmetic, reading, spelling, spoken and written English, geography, and history. Every child should have the satisfaction of success in his work.

Science plays such an important part in human living today that it must have a definite place on the school program. The work of the seventh and eighth grades has been so arranged that the boys and girls would learn to appreciate their immediate environment.

Health and Safety Education continues to receive considerable attention. Another important phase of our work has been to provide at least to some extent activities that will influence the pupils in the use of their leisure time, not only now, but later in life. Our world has become "leisure time conscious." One writer states: "The backyard, playground, and street parallel and eclipse the school—the press, the radio, the motion picture, and the comic strip all reach out after the child." The school cannot change all of these influences at once, but it can assist the child in many ways by intelligent and patient guidance.

As a special feature for National Education Week, the pupils of the Grammar School exhibited various hobbies which they have enjoyed and developed during weekly meetings of their Hobby Club. In the Primary Room emphasis has been placed on worthy use of leisure time. During the noon hour, radio programs, which tend to develop an interest in literature are enjoyed, and "Etiquette Reminders" are enacted which have proved very beneficial. Through the efforts and cooperation of a number of the mothers, a very successful musical program was presented jointly by the Primary and the Grammar Schools on December 6th. The proceeds will be used for additional equipment for the schools.

In conclusion I wish to express my appreciation for the cooperation accorded me by the School Board, parents, teachers, and pupils.

Respectfully submitted,

WILLIAM J. NELSON,

Superintendent of Schools.

REPORT OF SUPERVISOR OF MUSIC

To Mr. W. J. Nelson, Superintendent of Schools.

I herewith submit my annual report as Supervisor of Music in the Atkinson Schools.

Today when all educational agencies are much concerned with the training for leisure, music holds a more important place in our school curriculum. Through music the students develop the power of expression and the power of appreciation of the beautiful. Music Education begins in the first grade where the children are taught to sing tunefully many beautiful songs based on topics familiar to them. Music reading, which is introduced in grade two is carried on through grade eight.

In December a musical play "The Parade of the Holidays" was presented by the pupils of the Primary and Grammar Schools. Excellent work was done by the boys and girls under the capable direction of their teachers.

The pupils of the Academy are hard at work on the operetta "Bobby" by Sarah Graves Clark. There is a great amount of enthusiasm in the undertaking and the affair will be presented in the early spring.

The end of the year finds me, as always, grateful to the teachers, on whose assistance I rely to such a great extent. For your cooperation, I wish to express my appreciation and thanks.

Respectfully submitted,

EVA W. THOMPSON,

Music Supervisor.

REPORT OF THE SCHOOL NURSE

Town of Atkinson.

To the Superintendent of Schools.

I herewith submit my annual report of the schools, for the year 1939-1940.

I wish to thank the Superintendent and members of the School Board, for their kindness and cooperation in helping to make the year a success. Also the Red Cross committee, and members of the Grange for the financial assistance rendered, which made the dental clinic possible.

The report follows:

Number of pupils examined, 70.

Number of pupils underweight, 5. Treated since last examination, 5.

Number of pupils with defective vision, 5. Treated since last examination, 3.

Number of pupils with defective teeth, 21. Corrected since last examination, 25.

Number of pupils with enlarged tonsils, 4. Corrected since last examination, 5.

Number of pupils with enlarged glands, 3. Corrected since last examination, 2.

Skin diseases, 2. (Excluded). Total number vaccinated, 70.

Dental clinic held at the Library, in May. 28 children attended, and had their teeth put in good condition. Many decayed, abscessed teeth were removed.

A letter was written asking the Grange to sponsor the clinic and they kindly consented. The Red Cross also assisted. Certificates were given for complete care and twenty-six received this award. The clinic was most successful.

Children were weighed several times during the year and records sent to parents. Eighty-five school calls were made during the year, and twenty-five home calls.

Special inspections were made for any evidences of skin diseases or pediculosis, and notices and exclusions as necessary.

Notices of all defects found were sent home to parents.

Respectfully submitted,

HELEN W. THOMAS,

School Nurse.
